

Citizen's Answer To President's Inaugural Plea Might Well Include Getting Along With Others

**Brotherhood Week
Set February 18-25**

There is a clear answer to President Kennedy's inaugural question. Every American can respect his fellow-man. This would do more for democratic principles than any other one thing an individual citizen might do. Human dignity is one of the bulwarks of freedom-loving people the world over. Respect for the individual has always been this country's greatest asset.

Each year, since 1934, the National Conference of Christians and Jews has sponsored the national observance of Brotherhood Week during the week of George Washington's birthday. The dates for this year are February 18-25, 1962. The Conference is an organization dedicated to the aim of breaking down the barriers of religious, racial and ethnic prejudice which threaten democracy and distort business, social and political relations.

Love Everybody—No!

Brotherhood does not mean we have to love everyone. It means that the opportunity should be given to understand people of every race, creed and nationality as individuals. Then a decision to like or dislike can be made.

Accept or reject a person strictly on his own merits as a human being and not because he happens to be different. Don't think that Brotherhood is easy, either, and can be accomplished in a day or week through a simple switch in mental attitude. Brotherhood has to be practiced every minute of every day as any major accomplishment must be practiced.

Practice Required

Remember — it takes a long time and many mistakes to learn the simplest arithmetic. Brotherhood takes practice too.

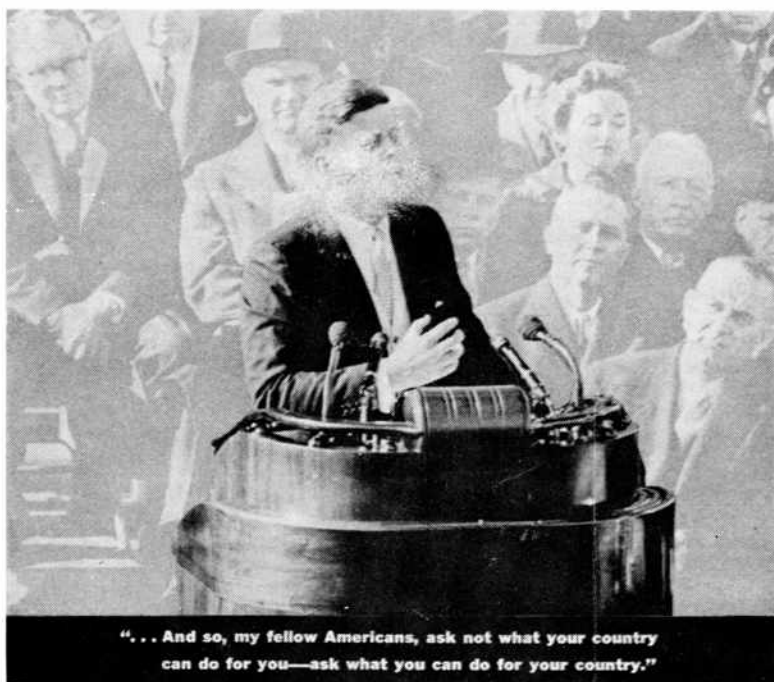

Don't be afraid of differences. Difference is one of the miracles of nature. Every snowflake, every fingerprint, every laugh and every cry — nothing remains static or the same. Life is always growing and changing. Try to imagine a world in which everything was the same. It is difficult to conjure up such a world. Monotony beyond belief is the end result. This is one of the major weaknesses of Communism, the aim to equate every human to a set formula. One of the exciting aspects of the American dream is the strength of its different groups. Respect and learn to enjoy the differences of your fellow man. If everyone looked alike and though alike, day after day would pass in eternal monotony.

What Others Say

Here are some statements from famous Americans, relative to the need of man to respect his fellow man.

"All men are children of one Father and brothers in the human family. Brotherhood dedicates us to the practice of understanding and justice through which freedom and equality flourish in human society. While we are engaged in a mighty struggle to preserve our institutions and to extend the boundaries of liberty on earth, it is good for us to pledge renewed devotion to the fundamentals upon which this nation has been built. Brotherhood must prevail. Our inescapable

Continued on Page 4

"... And so, my fellow Americans, ask not what your country can do for you—ask what you can do for your country."

IN HIS INAUGURAL ADDRESS, President Kennedy declared: "Ask not what your country can do for you . . . rather what you can do for your country." The National Conference of Christians and Jews is sponsoring Brotherhood Week as one answer for what Mr. Citizen can do to better his country and world. Of All Things! Y-12 Has Hay Up For Sale

Y-12ers, wishing to "make hay while the sunne shineth," may be interested in the sealed bid sale of hay in and around Y-12. Bids are being accepted for the cutting, baling and removing of hay from about 105 acres, both inside and outside the Y-12 security fence. Bids may be submitted in three separate ways: for the total acreage, for acreage outside the fence, and for the hay inside the fence.

Successful bidders must, of course, furnish security cleared personnel to escort uncleared workers inside the security fence. The hay must be harvested and removed from the area by November 1, 1962.

Employees wishing to inspect the areas may call extension 4601 for an appointment. Maps will be shown the interested party at the time of the inspection.

Further information or an invitation to bid may be had by writing, telephoning or wiring Union Carbide Nuclear Company's Sales Office, c/o U. S. Atomic Energy Commission, P. O. Box 398, Oak Ridge, Tenn.

ISA's New Instrument Show Tomorrow Night

The Oak Ridge Section of the Instrument Society of America will have its annual "New Instrument Show" at 8 p.m., tomorrow Thursday, February 15, in the Green Room of the Ridge Recreation Hall, Oak Ridge.

The theory and application of six new instruments will be presented by members of the ISA. An open discussion to determine new applications for the instruments will follow each presentation. Free refreshments will be available after the meeting. All members and guests are urged to attend the meeting and participate in the discussions.

Shoopman Rites In Oliver Springs

Funeral services for Winfred E. Shoopman were held Tuesday, February 6, at the Orchard View Baptist Church. The Reverends Leland Thomas and Ellis Patterson officiated. Burial followed in the Mount Pisgah Cemetery.

W. Shoopman

The former Y-12er died Saturday, February 3. He had been employed since June 23, 1954, and was employed in Y-12's Buildings and Grounds. A native of Oliver Springs, he was the son of Mr. and Mrs. John O. Shoopman. His father retired from Y-12 September 30, 1960. In addition to his parents, Mr. Shoopman is survived by his widow, Mrs. Florence Shoopman; two sons, Kenneth and Winfred Jr.; two daughters, Sandra and Linda; brothers, Roy, Mickey, and Herman, all of Route 2, Oliver Springs.

Mr. Shoopman served in the United States Army during World War II.

Fellow employees express their deepest sympathy to the surviving families.

1961 Safety Record In Review Shows 2,854 Days Lost In Y-12

All Four UCNC Plants Have Records Favorable To Nation-Wide Averages

A review of 1961's safety record in the Y-12 plant shows more than the 16 lost-time accidents recorded for the year. A total of 2,854 days were lost or charged to lost-time mishaps. This compares with a total of 5 lost-time accidents, and 176 days lost for the previous year, Y-12's best safety year in history.

A comparison of disabling injuries in Y-12 follows:

	1961	1960	1959
Number Injuries	16	5	12
Frequency Rate*	1.27	0.41	1.01
Days Lost or Charged	2,854	176	3,378

*Number of injuries per million man hours of exposure.

The four Union Carbide Nuclear Plants in Oak Ridge and Paducah all had records which compare favorably with the nationwide statistics in the chemical industry and all industry.

Following is a recapitulation of the injury record for Y-12, Oak Ridge Gaseous Diffusion Plant, Oak Ridge National Laboratory, and Paducah:

DISABLING INJURIES—1961

	Number of Injuries	Frequency Rate	Days Lost Or Charged
Y-12	16	1.27	2,854
ORGDP	10	1.53	510
ORNL	9	1.40	1,836
Paducah	3	0.99	137

These rates compare with the nation as a whole in frequency of 3.71 in the chemical industry, and 6.04 in all industries.

Of the 16 disabling accidents in Y-12 last year, five were lacerations, two amputations to fingers, one temperature burn, one acid burn, four contusions, two fractures and dislocations, and one strain.

3,606 First Aid Cases

The number of first aid cases in the Y-12 area increased also for 1961. A total of 3,606 was recorded; 177 additional ones listed as serious injuries. This totaled 3,783 accidents on the job for Y-12ers.

Employees were safer at work during 1961 than they were at home by far. Off-the-job injuries totaled 120 lost-time mishaps accounting for 9,021 days lost. Many of these, 42 to be exact, were lost due to automobile accidents. One fatality off-the-job was recorded during the year, as an employee died in a motorcycle accident.

Following is a report of on and off the job disabling accidents recorded during 1961.

DISABLING INJURIES

Plant	On-The-Job		Off-The-Job	
	Number Injuries	Days Lost	Number Injuries	Days Lost
Y-12	16	2,854	120	9,021

Off-the-job statistics are difficult to keep on employees. One is usually off from work at least three days before it is reported. The exact number and cause of injuries away from work cannot be ascertained. The 120 shown above, however, reflect a total of 9,021 days lost by employees due to accidents off the job.

An alarming 44 accidents occurred to Y-12ers in their homes, and 18 were recorded in recreational activities. While a person can't stay at work 24 hours a day, it seems from statistics that he would be much safer if this were possible. One odd accident happened to a Y-12er, as he was stung by a poisonous scorpion. His physician informed him that these venomous creatures are on the increase in this section. The same employee had previously suffered a black widow spider bite.

Good Record Started For 1962

Meanwhile, 1962 has started with a clean slate. Through Sunday, February 11, 1,481,000 man-hours, or 45 days have been worked without a lost-time accident.

While every employee can look back on the 1960 outstanding record when Y-12 established a 10,307,137 man-hour record, going for 11 months without a disabling injury, it is the present that should concern us more. Proving that it can be done, each employee should resolve to do his utmost to achieve safe working conditions and practices throughout all working areas.

Individual Awareness Needed

Safety awareness on the part of all plant personnel will bring about the desired results. This awareness emphasizes the use of protective equipment where required as well as the observance of all safety rules and regulations.

Due to the number of home accidents, it would be a wise thing also for each employee to take safe working habits home with him. Lost time slows down the job to be done, and, more important, brings painful injury and expense to the individual. From a selfish standpoint, safety makes good sense!

A green light burns at each portal that is a signal that the previous day has passed without a serious injury in the plant. Let's keep each light burning brightly every day!

Data Processing Is Topic At NAA Meeting

"Data Processing" will be discussed at the Knoxville-Oak Ridge Chapter of the National Association of Accountants meeting Tuesday, February 20. The meeting will be held at the usual place, the Dwarf Restaurant, on

the Clinton Highway. Discussing data processing will be Ira Hayes, Special Representative of the National Cash Register Company, Dayton, Ohio. All members and guests are invited to attend.

UCC Sales Hit All-Time High, Profits Down

**Price Reductions
Were Not Off-Set
By Efficiencies**

Record fourth-quarter sales raised Union Carbide Corporation's total sales for 1961 to an all-time high, but net income was below last year's, Morse G. Dial, chairman and chief executive officer, reported in a preliminary statement.

Sales in 1961 amounted to \$1,563,358,000. This was a gain of one per cent over sales of \$1,548,168,000 for 1960. Net income for 1961 was \$142,298,000 or \$4.73 a share. This was a decline of 10 per cent from net income of \$157,980,000, or \$5.25 a share, earned in 1960.

Factors that had a significant effect on 1961 earnings were price reductions in several areas of Carbide's business that were not offset by operating efficiencies and increased volume, and a substantial increase in charges for depreciation resulting from the high level of construction expenditures in recent years. A reduction in dividends received from overseas companies also adversely affected earnings.

'62 Prospects Good

Chairman Dial pointed out that Carbide has expanded its production capacity to meet the growth forecasted for segments of the nation's industry that it supplies, and that to date this growth has been insufficient to make use of the corporation's full capacity. He said, however: "We anticipate that the demands of our customers during 1962 will lead to greater utilization of our capacity, and result in improved sales and earnings for the year."

The Annual Report, showing more detailed figures on income and expenditures for 1961, will be mailed to stockholders about February 28.

'Killer' Added To Ridge Theatre

Oak Ridge's Studio Theatre will present its third annual production this Friday and Saturday, February 16, 17 at the Oak Ridge Playhouse in Jackson Square. Ionesco's frightening drama, "The Killer" is the play. The lead is assumed by Art Dworkin, remembered by local theatre audiences for his excellent performance in the lead in "The Tea House of the August Moon."

The entire cast will be familiar to Playhouse audiences, having been in numerous other productions.

While "The Killer" is being presented as a free bonus to Playhouse members, tickets are on sale to the public and available at the Playhouse box office. The unusual drama will be repeated next week-end, February 23, 24.

This is a true story, supposedly. It seems an out-lander, tourist, furriner was traveling in the foothills of the Great Smokies once. She stopped and began talking to this farmer. "How do you make a living, Sir?" she asked.

"Grubbing this dad-blamed land," was the answer.

"Goodness, you eke out an existence by working this land. Isn't it a small pittance you make?"

"Yes'm," he replied, "and sometimes you can't drink the stuff!"

Around Y-12, they're telling, in—

INDUSTRIAL RELATIONS

Emma Lynn Hansard

And this little doll comes from the Fire and Guard Departments, where her grandfather, J. H. Hansard, is showing this picture all over the place. It is his first, so naturally all rules are disbanded. He can show it as much as he pleases. She is Emma Lynn Hansard, born January 22, Oak Ridge Hospital. She weighed six pounds, one and one-half ounces. Her parents are Bobbie and Anna Lou Hansard, Route 1, Clinton.

Get well wishes are sent to Guard J. E. Morgan's father — he has recently been seriously ill.

Welcomes back to H. J. Ballew and J. T. Byrum, back after illnesses. Best wishes to H. L. Miller, the latest victim of the bug!

MAINTENANCE

David D. Marrow

Someone once said that "nothing is ever lost." Well, this little chap's picture got lost, thanks to a filing system in The Bulletin office that would make a preacher cuss. Anyhow, and anyway, the Pink Ladies, God Bless them, at the Ft. Sanders Presbyterian Hospital, came through with a duplicate of it. It's well worth the effort too. This little fellow is the son of Mr. and Mrs. H. A. Marrow. His dad is in Area Five Maintenance in Y-12. He was born December 30, 1961. The family lives at Route 15, Piney Grove Road, Knoxville, Tennessee. This makes two boys and two girls for the happy Marrow family. (The Editor promises he will never,

never lose another picture, particularly a baby's picture.)

Electrical dots and dashes in some news with the welcome mat rolled out for L. Branham, who recently joined the crowd... All the smoke seen at Building 9737 would not alarm the Fire Department, it's just from cigars being passed out by C. L. Moulton. He's a proud papa again, and it's a boy, David Lynn. He has two little girls and we hear they are just as excited as papa is about the baby brother... Pink ribbons are the order of the day at the T. D. Bagwell home. A daughter, Vera Katherine was born February 6, and weighed eight pounds, six and one-half ounces. With two little boys already in the family, Mom and Dad Bagwell are tickled "pink" to welcome a little girl... Sorry that W. F. Smith, J. F. Johnson, C. E. Phillips, N. L. Derryberry, C. G. Treece, B. Cobb, and S. King are all on the ailing list. Hope all of them come back real soon... And get well wishes are also sent to B. I. Scott's wife, also ailing.

The doctor who told his patient he would be walking in a month was so right. When the patient got the bill, he had to sell his car!

SHIFT SUPERINTENDENTS AND UTILITIES

Best wishes for a quick and speedy recovery are sent to A. S. Howell, H. D. Baker, and J. O. Loy, all on the ailing list.

Vacationing last week were L. R. Bailey and W. J. Wiggins, neither told where or what.

Back in the Baptist Hospital again is J. L. Hart with the same old trouble and best wishes go speedily to him also.

Old age is not so bad when you consider the only other alternative man has!

MECHANICAL OPERATIONS

The General Machine Shop is wafting good wishes to W. F. Ragsdale who is in the hospital undergoing surgery... Welcome in to D. G. Sexton, transferred down recently.

It says here that a wedding ring soaked in dishwater three times a day will last much longer!

ENGINEERING

Tool Engineering tells that Rus Hensley plans a week's vacation to St. Petersburg, Fla. to help his son recover from heart surgery... Peggy Hardin is taking off for Ocala, Fla. Promised to bring everyone back a sack full of tree-ripened oranges, too.

Numerical Control is sending Ken Pluhar heartiest best wishes for a speedy recovery.

Bill Schnatter left recently for Louisville, Ky. and Tool Engineering in Beta Four all got together Saturday night to honor him at the Edgewood Steak House.

Everybody credits a good listener with high intelligence. If you are still with us, thanks for your great intellect!

Try-Outs Set Sunday For Ustinov's Satire

Try-outs for the Oak Ridge Playhouse's last production will be held Sunday, February 18, at the Playhouse in Jackson Square at 4 p.m. and again at 8 p.m. The readings are open to the entire community and surrounding

Many Attend C Shift Party

PART OF THE HAPPY crowd is seen at C Shift's recent family night party, held Friday, February 1, at the Oak Terrace. Here the participants are busily engaged in some sort of game.

HAPPY PRIZE WINNERS from C Shift's party are Capt. D. C. Shults, Guard Department, who won a clock, Mrs. Shults with Range Set (she also won a Scotch Kooler not shown), H. C. Nichols, Beta Two, with his daughter Susan winning an electric lantern, and Elizabeth Rowland with her Corning Ware set. Elizbaeth's father, B. E. Rowland, is in Production Inspection.

ABOUT TO SCALP her husband is Ann Lively with a hatchet she won. C. R. won a corn popper, and refused to trade with her. He's in Y-12's Guard Department. (It says here that he swapped his corn popper for the hatchet, and still has the upper part of his head with him!)

areas. Peter Ustinov's entertaining satire about the smallest country in the world (it has a standing army of two), "Romanoff and Juliet," has been selected to close one of the Playhouse's most successful years.

Y-12ers interested in reading for parts find that nine men and four women are needed for different roles. Ages range from 22 through the mid-fifties. Others interested in working on costumes, lighting, makeup, or props may come to the Playhouse too. "Romanoff and Juliet" will begin rehearsals in mid-March and will open at the Playhouse on Friday, April 27.

'Electron Shakeoff' Is Topic Of ORNL Seminar

The Oak Ridge National Laboratory Physics Division announces as its seminar for Friday, February 16, "Electron Shakeoff Following Beta Decay." Leading the seminar will be T. A. Carlson, of ORNL's Chemistry Division.

The meeting is scheduled for 3:15 p.m. in the East Auditorium of ORNL's 4500 building, and all interested technical personnel are invited.

There is no holiday for security.

Rodders Grab 3 From Hephexers

Dry Hides Fall Hard To Kemix

The D League for Carbide Bowlers saw the Y-12 Rodders grab three points from the Hephex team. The other Y-12 team, however, was not so fortunate. The Dry Hides fell four full points to the Kemix.

High handicap series were rolled by the hot team with a 3012. High individual scores were posted by the Sh-Booms' Goldstein, with 255 and 658 handicap scores.

League standings follow:

Team	W	L
Sh-Booms	7	1
Rodders (Y-12)	6	2
Pin Heads	6	2
Beryls	5	3
Alley Rams	5	3
Kemix	5	3
Dry Hides (Y-12)	3	5
Gassers	3	5
Hephex	3	5
Termites	2	6
Guttersnipes	2	6
ORINS	1	7

22-Rifle Team From Y-12 Wins Forfeit Gains

Standings in the 22-Calibre Rifle League for Carbide firers are about the same, as the Y-12 team won from Oak Ridge Gaseous Diffusion Plant by forfeit and the Oak Ridge National Laboratory also took two points from the Independents. Firing anyway, the Y-12 team showed Jack Huff with his best scores of the season with 292 scratch, and 293.006 handicap. Carl Brewster showed a 282, 290.460 score.

Y-12's total scratch score totaled 1125 and team handicap score registered at 1161.260.

League standings follow:

Team	W	L
ORNL	18	5
Y-12	16	7
Independents	12	11
ORGDP	0	23

80 Bowlers Sign For Tournament

A total of 17 men's teams had signed to participate in the Y-12 Bowling Tournament February 24, 25. Of these bowlers, there would be 35 doubles and 70 singles. Five mixed doubles indicated that they would bowl, with five women's doubles and 10 women's singles. Indications that possibly eight or 10 more teams would be eligible for the big event coming up next week-end.

Guttersnipes Take 3 Points From Rookies

The Kingston League for Carbide Bowlers last week saw the Y-12 Guttersnipes take three points from the Rookies. Other games had the Head Pins win likewise from the Alley Cads, and the Could B's took four from the Sparemen.

High game scratchwise was rolled by Tom Miller, Rookies, with 211. His scratch series of 552 and handicap series score of 639 was also tops. The Guttersnipes took handicap team honors with 1017 and 2922.

League standings follow:

Team	W	L
Alley Cads	13	7
Head Pins	13	7
Guttersnipes (Y-12)	12	8
Rookies	10	10
Could B's	8	12
Sparemen	4	16

Beaver Brook Has Golf Play-Off!!

Weather Permits Finals In Golfing League

Here's a nice twist to the old "June-in-January" theme. The Beaver Brook League for Carbide golfers just got around to playing the championship matches a week or so ago.

Winners were declared as Bob Loy, Sunflower Shop, and Gene Huskisson, General Machine Shop. The late play-off was caused by bad weather and continued postponement. The nine-hole match saw Loy with a tally of 37, and Huskisson with 38. The same team won the first half of league play. The team of Lewis-Corum from Oak Ridge National Laboratory were winners of the second half, but fell to the Loy-Huskisson two in the championship match.

Huskisson-Loy will receive appropriately designed trophies and one dozen golf balls each.

Crappie Not Always Called A Crappie

If the common names of some of the more popular sport fish seem confusing, it's no wonder. At the turn of the present century, the common crappie was known to the fishermen of that time by nearly a hundred different names. Some old timers may recognize a few of them—chinquapin perch, new light, tin perch, campbellite, strawberry bass, and paper-mouth.

THE HAPLESS B SHIFT TEAM drops from competition in the Carbide Basketball League. Due to shift assignments, flu epidemics, children in school, wives wanting the car, etc., etc., the players just could not make the schedule. All teams with games scheduled with B Shift earn a forfeit win. Seen from the left are W. A. Leake, R. G. Carver, Manager R. B. Bird-whistell, T. S. Sparks, and B. D. Cofer. Better luck next year, men.

Rollmasters Lead League After Taking 4

The Rollmasters, Y-12's team in the 5:45 Wednesday League for Carbide bowlers, got their licks in last week by defeating the Wacos by the full four points. Thus they improved their situation in the tight league race considerably.

Barney Dixon, Pirates, rolled an amazing 237 scratch game, boosted to 265 with handicap added. Rene Rodriguez, Sandbaggers, fired 670 and 733 in series play. The Cast-Offs, from Oak Ridge Gaseous Diffusion Plant, took team honors in handicap play with 1066 and 3011.

League standings follow:

Team	W	L
Planners	57½	34½
Head Pins	56	36
Sandbaggers	53	39
Rollmasters (Y-12)	52	40
Cast Offs	51½	40½
Mix-Ups	50	42
Wallops	53½	48½
Woodpeckers	42½	49½
Lab Demons	42	50
Pirates	42	50
Wacos	31	61
Rookies	30	62

ORSA To Conduct Pistol Course

Y-12ers, wishing to learn the manly art of pistolering, will be interested in a basic pistol training school to be held at the Oak Ridge Sportsmen's Association beginning Monday, February 19, and for the next four consecutive Mondays.

The course is for beginners, either men or women, and will consist of handling the firearms, target instructions, and actual firings. Gun safety will be emphasized and enforced at all classes. Pistols are available at the range, however, class members must provide own ammunition. Shells will be available at the range. The charge is \$2 for the entire course per person. ORSA members may enroll in the classes free. Anyone interested should be at the ORSA clubhouse at 7 p.m. Monday, February 19. Further information may be had by telephoning Tom Lemons, extension 8840.

B Shift Team Drops From Hoop Play; Y-12 Atoms On Top In Loop Standings

Week Has Two Forfeits As ORGDP's Peons Drop Lab Demons For Second Loss So Far

The Carbide Basketball League rolled along last week. Monday night's action at the Oak Ridge High School saw only one game played, with two going by way of forfeit.

In play the Oak Ridge Gaseous Diffusion Plant's Peons took the Kingston Five from Y-12, 48 to 36. Leading the victors were Terry Mothershed with 20, and Frank Young with a tally of ten. Leading the Five were Bethel Poston with 12 and Alexander with ten.

Y-12's Jay Birds took a forfeit game from B Shift, also from Y-12. The B Shift team has dropped from regular league play and all teams will be given a forfeit win in standings that are scheduled yet to play.

The Atoms from Y-12 took a forfeit also from fellow plantmen, the Hoopniks.

The ORGDP teams clashed Thursday night at Robertsville, as the Lab Demons fell for loss number two to the Peons. Bob Henderson led the Peons with 16 points; Glennis Harris followed with ten. For the losers it was Bill Slattery, 12; and Edd Woy, ten.

Two Y-12 teams fought it out later as the Jaybirds clipped the Kingston Five 36 to 24. Leading the field for the 'Birds it was Jerry Davis with eight, K. E. Davis with seven, and Lew Fitzgerald with six. Bethel Poston and Sparks had six each for the losers.

Incomplete first half standings:

Team	W	L
Atoms	6	1
Peons	6	1
Lab Demons	5	1
American Eagles	3	3
Jay Birds	2	4
Hoopniks	2	4
Kingston Five	1	4
B Shift	0	7

Second half standings follow:

Team	W	L
Atoms	4	0
Peons	3	1
American Eagles	1	1
Lab Demons	4	2
Jay Birds	2	2
Kingston Five	1	5
B Shift	0	2
Hoopniks	0	4

Keep America strong, protect her vital information.

Eagles Drop Two Games In Volleyball

Y-12's only team in the Volleyball League for Carbiders dropped two games last week to the A Shift aggregation from Oak Ridge Gaseous Diffusion Plant, 15-7, and 15-3. The only game the Eagles won, they picked up by the score of 15-11.

Other games featured the fancy A Shift team taking three from the Raiders, 15-1, 15-1, and 15-7. League leading Set-Ups beat ORSORTs 15-5, 15-5, and 15-6. Oak Ridge National Laboratory's Old Men clipped the Raiders for three straight also, 15-10, 15-3, and 15-10.

Team	W	L
Set-Ups	14	1
A Shift	13	2
Eagles (Y-12)	7	8
ORN Old Men	7	8
Raiders	6	12
ORSORT	5	10
Biology	0	12

TWO HAPPY Y-12ERS were caught recently between halves of a University of Tennessee basketball game. The unknown contributor of this flash shot left the following poem to identify the two: "Whether the basketball Vols win or lose . . . They have support from these two(s) . . . You can see see them at their games . . . Flash Williams and A. B. Seabolt are their names . . . As the games begin they are always there . . . For loyal supporters they're quite a pair!"

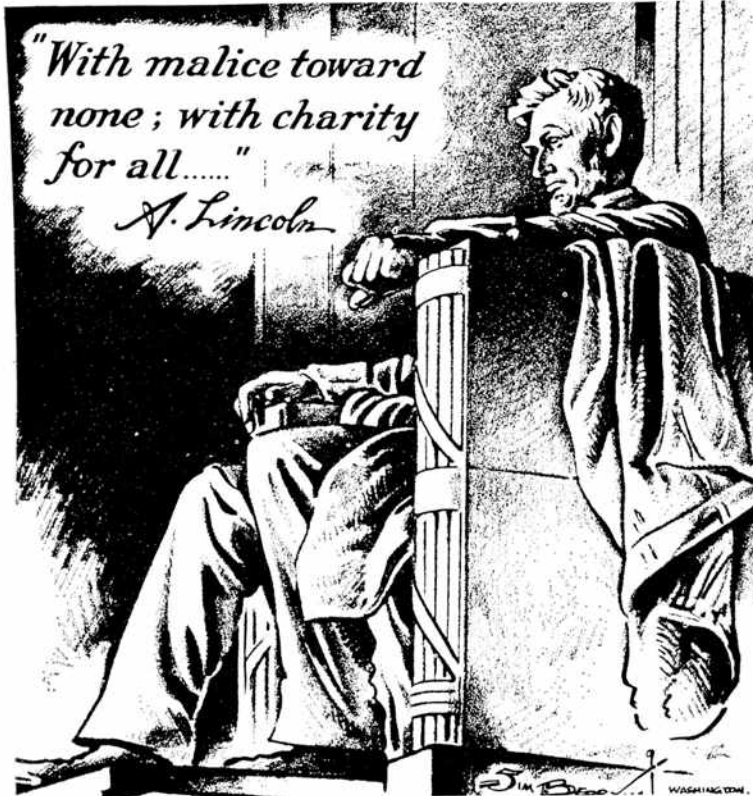

"He kept plugging away for a brand new territory!"

Wiest-Tunnell Lead Skeeters In 2nd Round

The second match in the All Carbide Skeet League shows Y-12er Don Pitt as top gun in skeeting firing of Sunday, February 4. Pitt's scratch firing of 23/25 and handicap score of 296.246/300 put his Pitt-Collins team in second place in firings.

The Wiest-Tunnell pair moved into first place in the late league standings. League leaders from the first round were not on hand to fire in the number two match. League standings follow.

Team	Score
Wiest-Tunnell	1154.387
Pitt-Collins	1147.915
Sahr-Stewart	1143.221
Patterson-Murray	1131.592
Bahler-Brewster	1129.752

Terry, Tool Department; C. J. Cumbe, Research Services; O. W. Breedlove, Machine Maintenance; Johnson Hagood, Beta Two; M. L. Rice, Product Processing; David G. Hoskins, Beta Two; Sam King, Electrical.

hood of man the guiding principle of our daily lives. I urge all Americans to join a nationwide observance of Brotherhood Week.

—President John F. Kennedy

Bigotry, class-hatred, prejudices are luxuries America can not afford. The world can ill afford them either. In these crucial times we as a nation must, in the words of one of our modern poets, "learn to love each other or die."

Z Area's Schmitt, Gail Belton Take Prizes In Safety's January Clean-Up Poster Race

CHIVALRY IS NOT DEAD, or maybe E. J. Schmitt, Z Area and Dispatching, just plain preferred the drill attachments. He took first place in the January poster contest, and is seen accepting his award from Spears Vavalides, left, of the Mechanical Operations Division. Gail Belton, Process Analysis, took second prize and is seen with her electric hair dryer. Schmitt explained he didn't have too much hair, anyway.

The winners of the January poster contest, sponsored by the Safety Department have been announced. They are E. J. Schmitt, Z Area and Dispatching, first place; and Gail Belton, Process Analysis, second place. Theme of the race for last month was: "The Real Meaning of Good Housekeeping — Spring Clean-Up." Schmitt's fine poster idea accompanies this story.

Entries are coming in for the February race, which offers the theme of "The Safe Use of Solvents." Feature prizes are an electric percolator and a fine piece of luggage. The winner, as usual, will take his choice of the two awards, and the second placer will take the other award.

Fortunately this month, the first place winner took the "man's" prize of the drill attachments, which allowed the second place winner to walk off with the automatic hair dryer.

On Display

The luggage and electric percolator are still on display in the lobby of the Cafeteria, along with other prizes in the monthly contest. Either selection would make entering the contest well worthwhile.

Any employee in the Y-12 area is eligible to enter the contest, as well as members of his family. The badge number, name, department, and building number must show on the entry, or the relationship to an employee.

Not Returned

Entries become the property of the Safety Department and cannot be returned. Each winning entry each month is used in the safety agenda for the designated time. February's contest is working on the April theme of Spring Clean-Up.

All poster ideas should be addressed to the Safety Department, Room 152, Building 9704-2.

Y-12ers Celebrating 15, 10 Year Anniversaries

Congratulations to the following Y-12ers who will observe 15 and 10-year anniversaries with Carbide within the next few days.

Israeli Pianist Returns To Ridge

The widely acclaimed Israeli pianist, David Bar-Illan will make a return appearance in Oak Ridge Saturday, February 17. The Oak Ridge Civic Music Association will present the pianist in recital at the Oak Ridge High School Auditorium, the concert beginning at 8:15 p.m. Bar-Illan's first concert here last year was received with great enthusiasm.

Included in the concert will be Schubert's Sonata in A, opus 120; Beethoven's Sonata in F minor, opus 57; Chopin's Ballade No. 4 and Scherzo No. 3; and Franz Liszt's Funerailles and Hungarian Rhapsody No. 15.

Tickets will be available at the box office.

RABBIT HABITS

A rabbit at birth has only one chance in 20 of reaching its first birthday.

Citizens' Answer

Continued From Page 1
choice is Brotherhood or chaos."
—Franklin D. Roosevelt

"Our abundant plains and mountains would yield little if it were not for the applied skill and energy of Americans working together as fellow citizens bound up in common destiny. The achievement of Brotherhood is the crowning objective of our society."

—Dwight D. Eisenhower

"The true foundation of the brotherhood of man is belief in the knowledge that God is the Father of mankind. For us, therefore, Brotherhood is not only a generous impulse but also a divine command. Others may be moved to Brotherhood only by sentiment. We acknowledge Brotherhood as a religious duty."

—Harry S. Truman

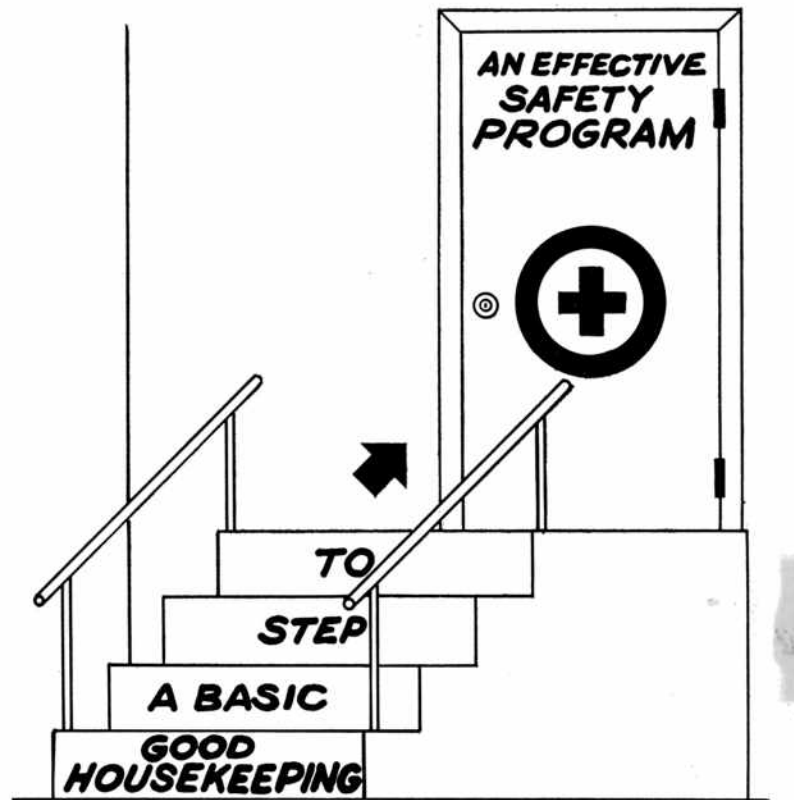

"We have a Bill of Rights in America, and it is the Magna Carta of our privileges. We have no comparable Bill of Responsibilities, for such cannot be written into our laws. It can only be written in the conscience of each one of us."

—Nelson D. Rockefeller

"Our answer, and the only answer there is in a democratic society, is to exert every possible effort to eliminate undemocratic practices and un-democratic attitudes, to do all that we can to close the gap between our professions of democracy and our practice of it."

—Ralph Bunche

"Human brotherhood is not just a goal. It is a condition on which our way of life depends. The question for our time is not whether all men are brothers. That question has been answered by the God who placed us on this earth together. The question is whether we have the strength and the will to make the brother-

If We Must . . .

If we must condemn,
Let us first condemn our own imperfections and shortcomings.

If we must fight,
Let us first fight our own complacency and concern.

If we must destroy,
Let us first destroy our own ignorance and prejudice.

If we must kill,
Let us first kill our own false pride and arrogance.

(Houston Times)

\$11 Million Goes For Paducah Payroll

The Atomic Energy Commission's huge gaseous diffusion plant at Paducah, Ky. had a total payroll of \$11,168,248 during 1961, B. N. Stiller, AEC Area Manager, has announced.

Stiller said the payroll figure was based on employment for both the AEC and Union Carbide Nuclear Company, which operates the plant for the AEC.

Safety consciousness pays.
